Disclaimers and Other Important Information

This presentation (this "Presentation") is for informational purposes only and has been prepared to assist interested parties in making their own evaluation with respect to a potential investment in AdaptHealth Corp. ("AdaptHealth" or the "Company") and for no other purpose. The information contained in this Presentation does not purport to be all inclusive. The data contained herein is derived from various internal and external sources. The information contained in this Presentation is not, and should not be assumed to be, complete and does not present all the information that investors may require or desire in considering an investment in the Company. It is not intended to form the basis of any investment decision or any other decision in respect of the Company. AdaptHealth (as well as its respective directors, officers and stockholders) makes, and each of hereby expressly disclaims, any representations or warranties, express or implied, as to the reasonableness of the assumptions made in this Presentation or the accuracy or completeness of any projections or modeling or any other information contained in this Presentation. AdaptHealth shall not have any liability for any representations, express or implied, contained in, or omissions from, this Presentation or any other written or oral communication communicated to the recipient in the course of the recipient's evaluation of AdaptHealth. Nothing contained within this Presentation is or should be relied upon as a promise or representation as to the future. AdaptHealth does not assume any obligation to provide the recipient with access to any additional information or to update the information in this Presentation. Investors should not construe the contents of this Presentation, or any prior or subsequent communications from or with the Company or its representatives as investment, legal or tax advice.

No securities commission or securities regulatory authority or other authority in the United States or any other jurisdiction has in any way passed upon the merits of a potential investment in AdaptHealth or the accuracy or adequacy of this Presentation.

Forward Looking Statements

This investor presentation includes certain statements that are not historical facts but are forward-looking statements for purposes of the safe harbor provisions under the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements generally are accompanied by words such as "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," "should," "would," "plan," "predict," "potential," "seem," "seek," "future," "outlook," and similar expressions that predict or indicate future events or trends or that are not statements of historical matters. These forward-looking statements include, but are not limited to, statements regarding projections, estimates and forecasts of revenue and other financial and performance metrics, projections of market opportunity and expectations, the Company's acquisition pipeline and the impact of the recent coronavirus (COVID-19) pandemic and our response to it. These statements are based on various assumptions and on the current expectations of Company management and are not predictions of actual performance. These forward-looking statements are provided for illustrative purposes only and are not intended to serve as, and must not be relied on, by any investor as, a guarantee, an assurance, a prediction or a definitive statement of fact or probability. Actual events and circumstances are difficult or impossible to predict and will differ from assumptions. Many actual events and circumstances are beyond the control of the Company.

These forward-looking statements are subject to a number of risks and uncertainties, including the outcome of judicial and administrative proceedings to which the Company may become a party or governmental investigations to which the Company may become subject that could interrupt or limit the Company's operations, result in adverse judgments, settlements or fines and create negative publicity; changes in the Company's clients' preferences, prospects and the competitive conditions prevailing in the healthcare sector; and the impact of the recent coronavirus (COVID-19) pandemic and the Company's response to it. A further description of such risks and uncertainties can be found in the Company's filings with the Securities and Exchange Commission. If the risks materialize or assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that the Company presently knows or that the Company currently believes are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. In addition, forward-looking statements reflect the Company's expectations, plans or forecasts of future events and views as of the date of this presentation. The Company anticipates that subsequent events and developments will cause the Company's assessments to change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's assessments as of any date subsequent to the date of this presentation. Accordingly, undue reliance should not be placed upon the forward-looking statements.

Market and Industry Data

Industry and market data used in this Presentation is unaudited and have been obtained from third-party industry publications and sources as well as from research reports prepared for other purposes. AdaptHealth has not independently verified the data obtained from these sources and cannot assure you of the data's accuracy or completeness. This data is subject to change and cannot always be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any statistical survey of market or industry data. You are cautioned not to give undue weight to such industry and market data.

Non-GAAP and Other Financial Information

This Presentation includes references to financial measures that are calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP"), including EBITDA, Adjusted EBITDA and Adjusted EBITDA less Patient Equipment Capex. AdaptHealth defines EBITDA as net income (loss) attributable to AdaptHealth Corp., plus net income attributable to noncontrolling interests, interest expense (income), income tax expense (benefit), and depreciation. AdaptHealth defines Adjusted EBITDA as EBITDA (as defined above), plus loss on extinguishment of debt, equity-based compensation expense, transaction costs, severance, and similar items of expense (income). AdaptHealth defines Adjusted EBITDA less Patient Equipment Capex as Adjusted EBITDA (as defined above) less patient equipment acquired during the period without regard to whether the equipment was purchased or financed through lease transactions. EBITDA, Adjusted EBITDA and Adjusted EBITDA less Patient Equipment Capex should not be considered as measures of financial performance under U.S. GAAP, and the items excluded from EBITDA, Adjusted EBITDA and Adjusted EBITDA less Patient Equipment Capex are significant components in understanding and assessing financial performance. Accordingly, these key business metrics have limitations as an analytical tool. They should not be considered as an alternative to net income or any other performance measures derived in accordance with U.S. GAAP or as an alternative to cash flows from operating activities as a measure of AdaptHealth's liquidity.

No Offer or Solicitation

This Presentation and any oral statements made in connection with this Presentation do not constitute an offer to sell, or a solicitation of an offer to buy, or a recommendation to purchase, any securities in any jurisdiction, or the solicitation of any proxy, vote, consent or approval in any jurisdiction, nor shall there be any sale, issuance or transfer of any securities in any jurisdiction where, or to any person to whom, such offer, solicitation or sale may be unlawful under the laws of such jurisdiction. No offer of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.
